

## **From the desk of Minister Of State, Labour Department**

*It gives me profound pleasure to know that the Labour Department, Government of West Bengal has launched a website of its own. The Labour Department has been delivering various services to a significant number of its stakeholders to ensure social security and well being of the workers in both organized and unorganized sectors, and to evolve progressive reforms towards creating a hassle-free environment for business and creation of employment in Bengal.*

*The website allows the stakeholders of the Department to browse through the various services and support Labour Department provides to them.*

*I sincerely hope that this effort of the Department would bring about more accountability, transparency and effectiveness.*

*I believe that the launching of this web portal is a good IT initiative and would help immensely in the long run. Lastly, I would like to extend my heartiest congratulations to the whole team involved in developing the web portal.*
